More about us

## Who are we?

GSD ENGINEERING is a precision engineering company oriented toward service, specializing in the repair and supply of hydraulic cylinders, pumps, motors, gearboxes, and valves.

Recognized as the preferred supplier in the engineering service industry, GSD ENGINEERING emphasizes service and value delivery.

In addition to its core services, GSD ENGINEERING specializes in meticulous machining and prioritizes safety through comprehensive training and compliance.

Operating within two workshops, GSD ENGINEERING empowers competent and motivated employees capable of assisting management in achieving the company's objectives.

GSD Engineering boasts a team of highly experienced professionals specializing in the repair and fabrication of equipment for the mining and industrial sectors.

Our comprehensive in-house service capabilities include pump and motor repairs, as well as the fabrication, welding, and machining of all types of engineering and mechanical equipment.

More about us

## Our business plan

Establish enduring partnerships with all clients and vendors rooted in strong ethical values. Consistently deliver independent and unparalleled service excellence and quality through the following means:

- Our company boasts proficient and self-disciplined employees who are dedicated to achieving excellence and delivering exceptional service.
- We are strategically located and equipped to ensure customer convenience and improve service quality, thereby reducing lead-time to meet your delivery needs.
- Our facility is well equipped with specialized testing equipment and provides round-the-clock backup service. Additionally, we ensure sufficient spare parts stock to effectively enhance turnaround times.
- We are committed to upholding all Original Equipment Manufacturer (OEM) specifications and standards, ensuring the highest level of compliance and quality.

---

## Our quality statement

GSD Engineering is dedicated to consistently delivering high-quality services and products that not only meet but also exceed customer and regulatory requirements. This is achieved through ongoing improvements to the effectiveness of the Quality Management System.

Every product received by GSD Engineering undergoes a meticulous testing process on the assembly line. This includes pressure testing of pumps and bench testing of bearing assemblies to ensure comprehensive certification and reporting.

More about us

## Our fundamental principles

GSD ENGINEERING is committed to delivering exceptional value that surpasses all client needs and expectations. Our focus is on achieving sustainable growth, ensuring complete client satisfaction, and implementing prudent management practices.

- Principles of Accountability and Responsibility,
- Respect and Openness, Integrity and Honesty, as well as
- Knowledge and Skills Transfer serve as the fundamental values upheld in our business/academic environment.

Our suppliers acknowledge the paramount importance of quality and adhere to the requisite standards. We are fully compliant with all OEM specifications and mandatory standards.

Our proficiency lies in our capability to ensure efficient and expeditious turnaround times while maintaining the highest possible quality standards.

## Services we offer

### Hydraulic Cylinders

GSD Engineering specializes in the repair and supply of hydraulic and pneumatic cylinders, catering to all makes and designs, including single- and double-acting configurations.

### Pumps & Motors

Repairs and maintenance services for a wide range of gear, vane, piston, single and multi-stage pumps, and motors are available at our workshop. We specialize in servicing most makes and designs, ensuring the highest quality workmanship and customer satisfaction.

- Centrifugal pumps (Warman, Envirotech, Metso, KSB)
- Positive displacement pumps (Bredel, Verderflex, Mono)
- Vertical spindle pumps (Warman's, Morris, Svedale, Titan, RNE & Balz)
- Motors (Electrical and Hydraulic)

### Valves & Gearboxes

Repairs and supplies of most makes of Valves, including directional control valves, Butterfly, Saunders, Diaphragm, and Pinch & Knife gate valves and gearboxes.

### Steel & Structural Fabrication

Our company offers a range of services and expertise, including:

- Chute Fabrication: Our team has extensive experience in the fabrication of chutes.
- Frame Fabrication: We are capable of producing precision CNC cut frame parts to meet specific design requirements.
- Base Fabrication and other construction/fabrication services as needed.

What we do

## **Skills Development**

We are committed to fostering the growth and advancement of our employees by prioritizing skills development and capacity building as integral aspects of our business.

In addition to providing on-the-job training and close mentorship, we offer a range of short training courses and support our staff in pursuing college diplomas to further their education and personal development.

The allocated budget for the current financial year amounts to 5% of our total salary expenditure. The areas designated for training and development include fitting and turning, fabrication, and any relevant engineering training programs.

## **Health and Safety**

At GSD ENGINEERING, we highly value our employees as our most valuable asset.

With this in mind, we are committed to approaching our daily projects and tasks with the utmost care for all our stakeholders.

We maintain a zero-tolerance policy within our workshops.

# Why GSD Engineering?

GSD Engineering boasts a team of experienced and qualified professionals adept in all facets of engineering design and solution deployment.

Our competent personnel are certified and possess extensive experience in project deployment, from conceptualization to implementation and commissioning, ensuring high-quality services for all our clients.

Over the years, GSD Engineering has consistently demonstrated its proficiency in designing and implementing project-based solutions.

Prospective clients can be confident in our capabilities, as we have in-house expertise to execute and support various workshop-based projects.

With a proven record of accomplishment, GSD Engineering has collaborated with corporate entities and public sectors to deliver solutions and services of varying scopes and sizes, acknowledged for our quality workmanship and swift turnaround times.

Going beyond implementation, we also provide sales and support services to ensure continuous customer satisfaction through our expertise.

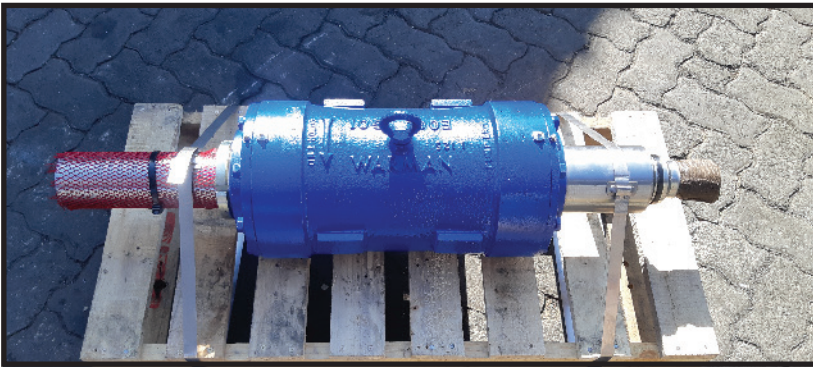

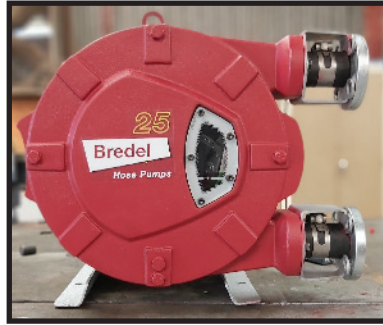

GSD Engineering is well equipped to offer comprehensive leadership to both current and potential clients, ensuring adaptability to new developments in the field of engineering.

To whom it may concern:

We are pleased to inform you that GSD Engineering have joined forces with us and are our Authorised Sole Distributors and Repair Workshop for Titan Pumps and components in the North West Province for Impala Platinum Mines. This excludes Sibanye Stillwater, PGM Marikana and Kroondal.

This letter is valid for 1 year.

We have also identified GSD Engineering as one of our Titan Depo's in the Rustenburg area. They carry a range of stock, offering a superior product with a remarkable turnaround time.

We are aware of inferior products currently in the market. Please be sure to support our authorised workshops, depo's and distributors in your area to avoid being associated with any inferior products.

Please do not hesitate to contact us should you require any further information.

Regards

Bronwen Gomes

**TO WHOM IT MAY CONCERN**

**AUTHORISED DISTRIBUTOR**

PRZ Slurry Pumps and Valves (Pty) Ltd is an original equipment manufacturer (OEM) of its own range of pumps which is produced at our Fochville/Randfontein workshops.

The company is committed to empowering and upskilling communities as part of its social responsibility plan. As a result of this, the company has approved and partnered with GSD Engineering as a distributor for the PRZ VS8/VS200 and the PRZ DW2/DWU200 products to the following areas/clients:

- Impala Platinum (South Africa)
- Northam Platinum Eland Mine (South Africa)

To ensure the partner company provides efficient quality and reliable service PRZ Slurry provides back up services and training to GSD Engineering. This will ensure the continuity in terms of relationships with clients, as well as adequate skills transfer and the right level of experience to ensure there is no loss of quality in terms of service.

This letter serves as notice of the distributor agreement, and our request for you to support GSD Engineering and PRZ Slurry Pumps and Valves (Pty) Ltd. This will assist in ensuring minimum disruption to supply.

I trust you find the above in order.

Yours faithfully,

Johan Louw  
Director

**RE-SELLER AUTHORISATION - BALZ PUMPS & PRODUCTS**  
**01 March 2024 – 01 September 2024**

To whom it may concern

As the OEM (Original Equipment Manufacturer) of the **BALZ® RANGE** of Vertical Spindle Pumps and related ancillary products, **LAMCO ENGINEERING/BALZ PUMPS SA**, confirms that **GSD ENGINEERING(Pty) Ltd**, has been granted re-seller rights to distribute and sell BALZ Pumps and ancillary products to IMPALA PLATINUM. This authorisation does not preclude any other duly authorised company from selling BALZ products.

GSD ENGINEERING (Pty) Ltd, undertake to actively market and sell BALZ products and entitles them to all support in sales and service as may be required to provide clients the full scope of supply of the BALZ VS Pump Range.

We wish to emphasise that BALZ Products are only allowed to be authentically distributed under the registered and specific brand names and registered trademark as allocated by LAMCO ENGINEERING/BALZ PUMPS SA.

This authorisation letter is valid until terminated by either party.

Yours sincerely,

Charlie Gradidge  
Managing Director
